

HOT SHAPERS

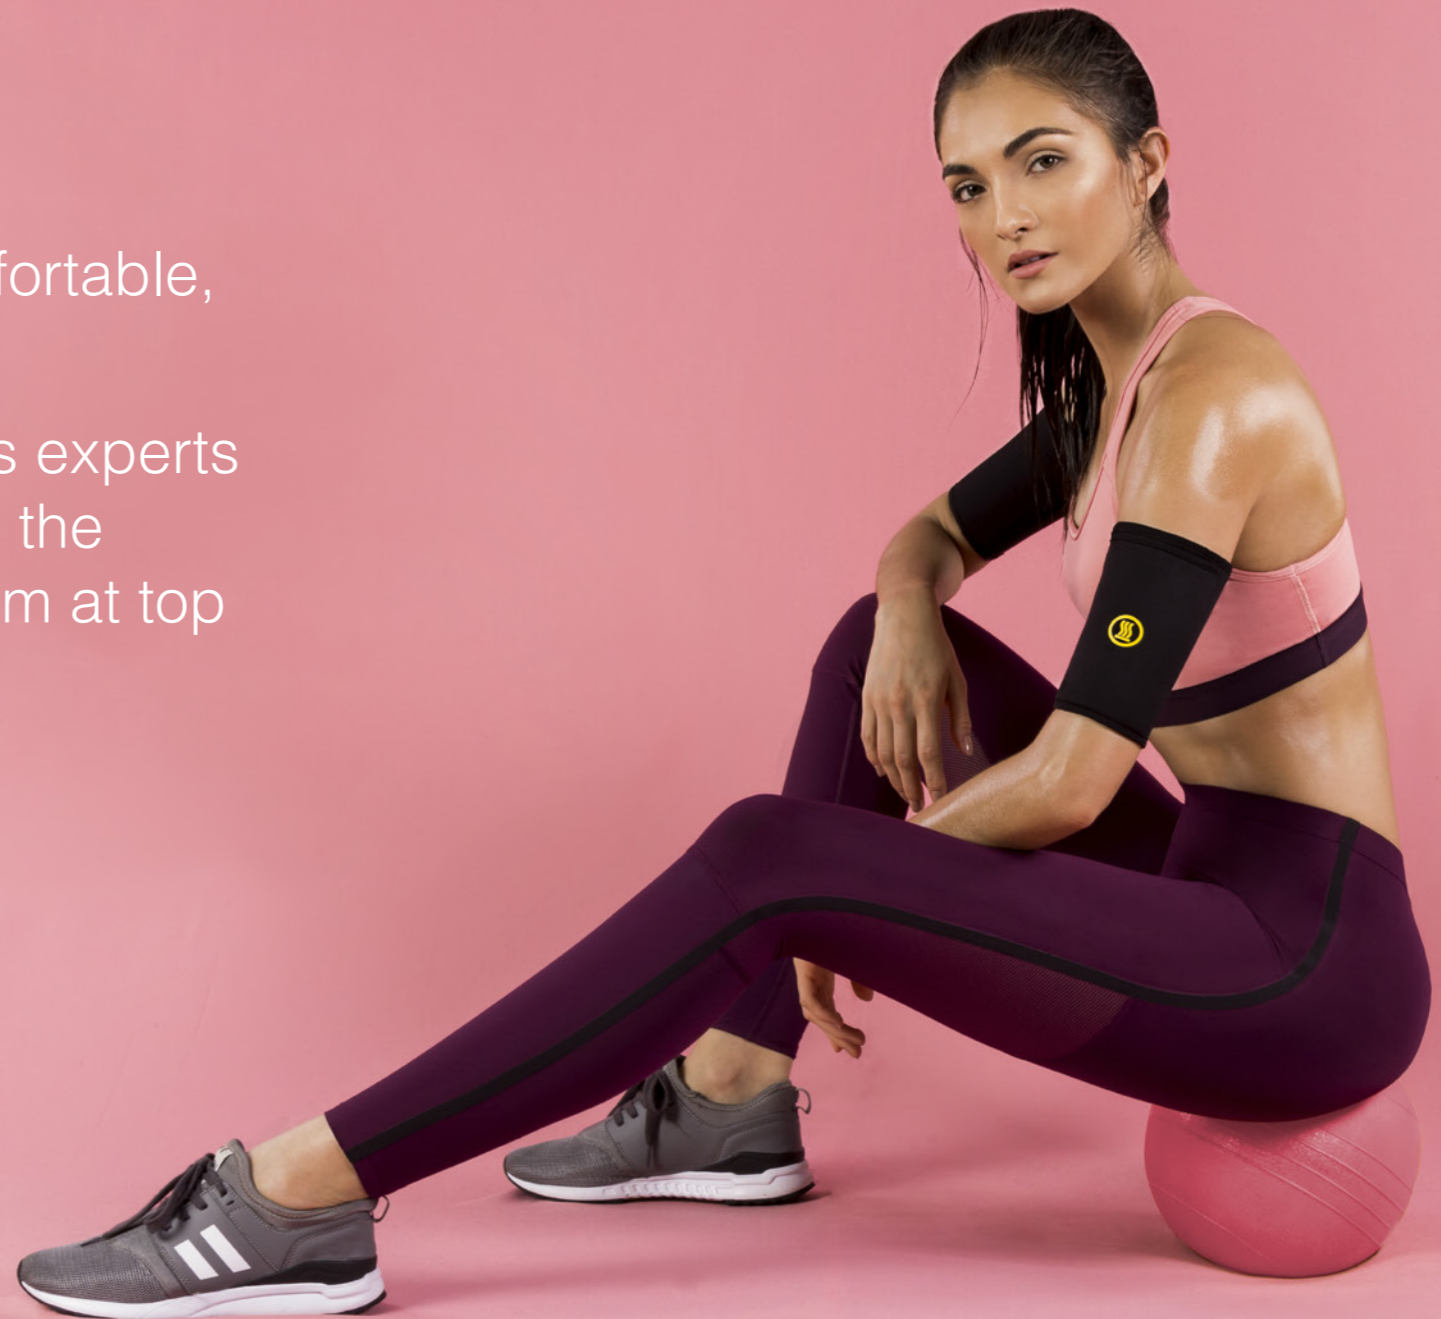

is an activewear brand in the intersection of fashion and technology. We create advanced workout gear that increase calorie burn through our unique Neotex™ smart fabric.

OUR PRODUCTS

are carefully designed to be comfortable, functional and stylish.

We work hand in hand with fitness experts and fashion designers to develop the hottest activewear that can perform at top levels and show results.

— AT HOT SHAPERS

we've devoted ourselves to understanding the daily challenges women experience when it comes to exercising.

OUR GOAL

is to have every woman that tries our activewear to achieve their ideal figure and promote an active lifestyle that makes them feel empowered, confident and happy.

STRONG WOMEN

are our inspiration and as so, we've set on a mission to help women tap into their strength, because we believe in the potential everyone has to evolve and become their best self.

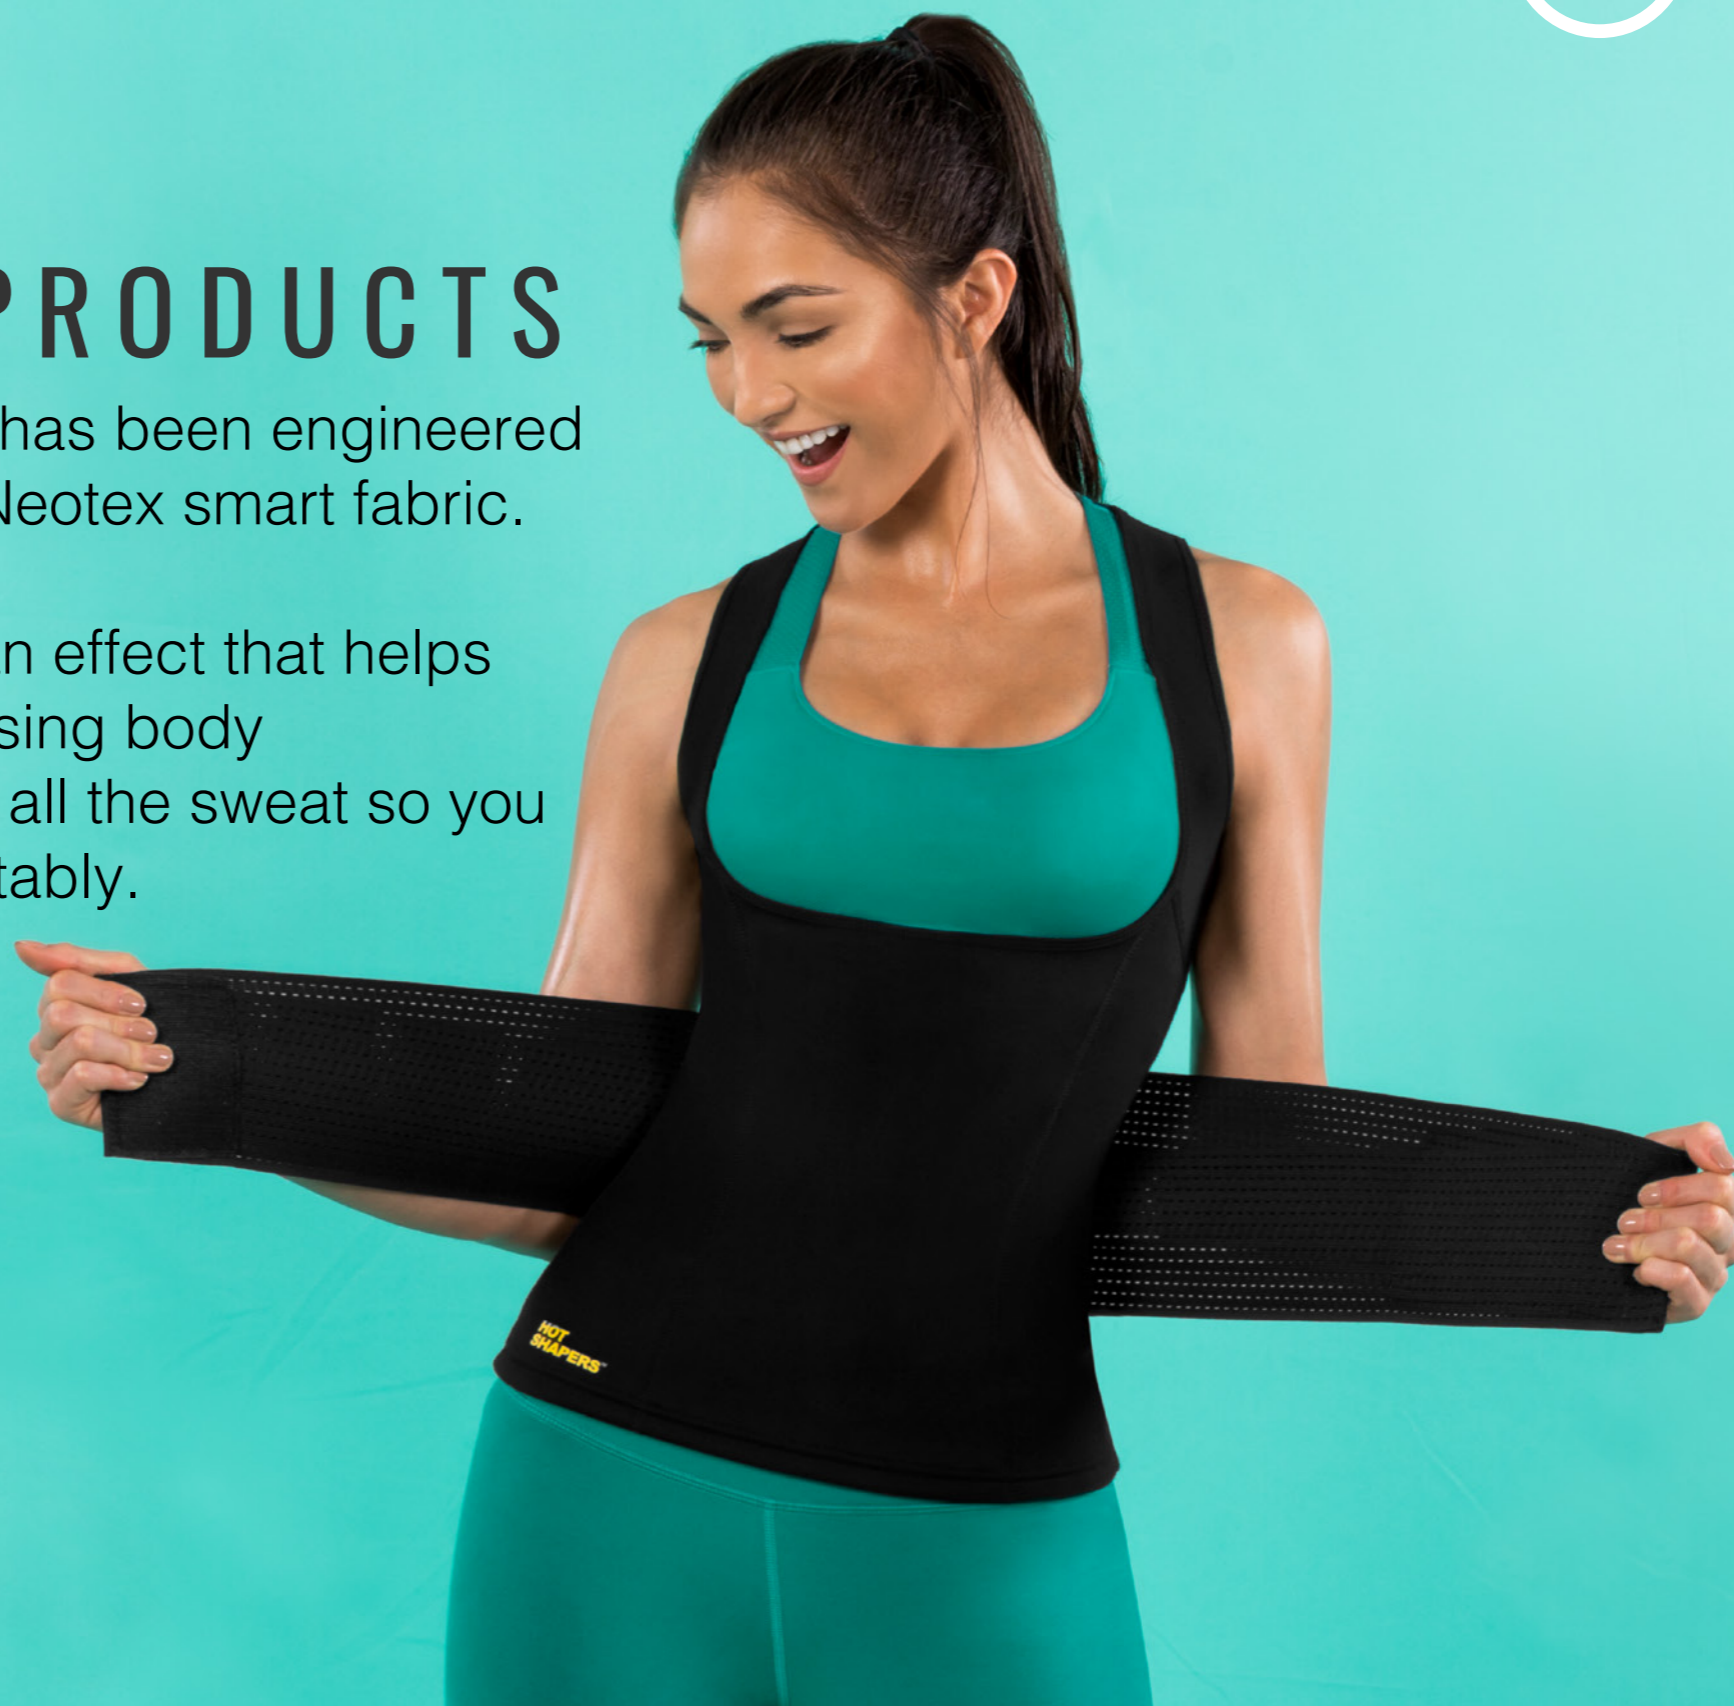

ABOUT OUR PRODUCTS

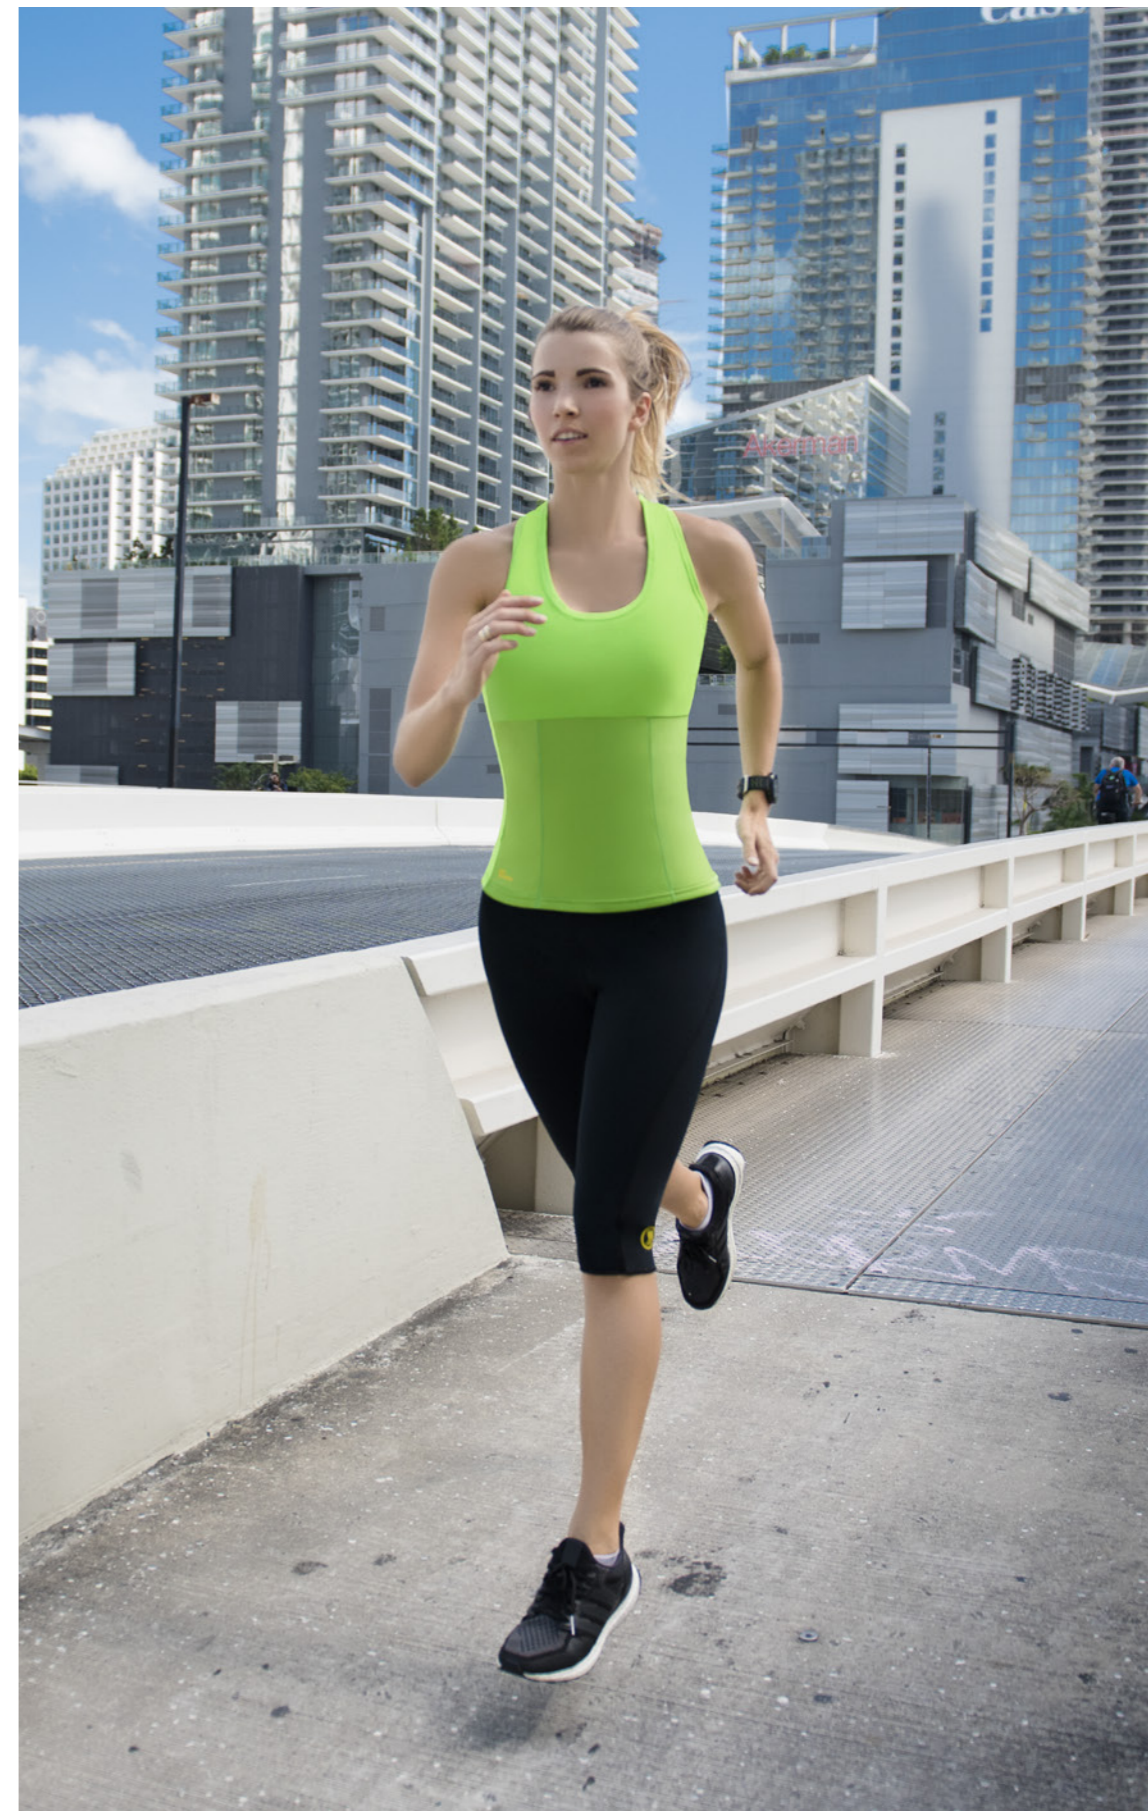

Our multi-layered neoprene has been engineered by textile experts to create Neotex smart fabric.

This special fabric creates an effect that helps promote sweating by increasing body temperature, while retaining all the sweat so you can keep exercising comfortably.

— THIS HEATING EFFECT

boosts your workout by improving your warm up and calorie burning process when exercising. It also helps avoid injuries by increasing circulation and keeping your muscles warm throughout workout.

THANK YOU
